Course Director: Michael Malone, MD

Learning Objectives: At the end of this conference, learners should be able to:

1. Understand and address the unique vulnerabilities of older adults who are acutely ill or injured.
2. Describe practice improvements to better address the needs of older individuals in the emergency department, in our hospitals, in programs to avoid hospitalization, and in transition between health care settings.
3. Describe key lessons learned as our health systems prepare to care for populations of older Americans.

This conference is supported in part by the Wisconsin Geriatric Education Center with a grant from the U.S. Health Resources and Services Administration (grant U1QHP28712).

Our thanks to the Gary & Mary West Foundation for an unrestricted education grant to provide the video conferencing link.
