CME activity of:

Course Director: Michael Malone, MD

Learning Objectives: At the end of this conference, learners should be able to:

1. Identify stages of frailty; those in greatest need of proactive, coordinated care.
2. Plan with patients to identify goals of care in the context of their advance illness (i.e. integrate health and social services, and physical and mental health).
3. Apply best practice/models of care to address needs of vulnerable older adults (i.e. engaging patients in decisions, coordinating care, team communication).

Our thanks to the Bader Philanthropies for an unrestricted education grant to provide the video conferencing link.

This conference is supported in part by the Wisconsin Geriatric Education Center with a grant from the U.S. Health Resources and Services Administration (grant U1QHP28712).
