Jon Richards, MD

**Conflict of Interest Disclosure Statement** It is the policy of Advocate Aurora Health Continuing Medical Education Office to ensure balance, independence, objectivity, and scientific rigor in all of its sponsored education activities. All participating faculty, course directors, and planning committee members are required to disclose to the program audience any financial relationships related to the subject matter of this program. Disclosure information is reviewed in advance in order to manage and resolve any possible conflicts of interest. All faculty and planning committee members have attested that their financial relationships do not affect their ability to present well-balanced evidence-based content for this activity. Specific disclosure information for each course faculty will be shared with the audience prior to the faculty's presentation.

**Accreditation** Advocate Aurora Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Advocate Aurora Health designates this live activity for a maximum of 4.5 AMA PRA Category 1 credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Successful completion of this CME activity enables the participant to earn up to 4.50 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit. Participation in Q&A is required in order to earn MOC points

This course will address current areas of breast cancer treatment, especially those which are new, changed or evolving.

**Target Audience** Family Practice, General Surgery, Hematology/Oncology, Medical Oncology, Obstetrics/Gynecology, Pathology, Plastic and Reconstructive Surgery, Radiation Oncology, Surgical Oncology, All Medical Staff

**Objectives** – Discuss the role of new and evolving treatments for breast cancer  
-Recognize how to identify patients at risk for breast cancer  
- Identify the role of advanced surgical, medical oncological and radiation oncological treatments for state-of-the-art breast cancer treatment

**Financial Support** Supported by an Educational Grant From Schroeder Chair of Surgery Endowment Earnings Fund Through Aurora Health Care Foundation

**ADA Compliance** Advocate Aurora Health subscribes to the articles of Title III of the Americans with Disabilities Act of 1990. Should you or anyone accompanying you require special assistance, please notify us by contacting [jill.hoffman@aurora.org](mailto:jill.hoffman@aurora.org)

We are  
**AdvocateAuroraHealth**  
Reimagining health. Transforming care.

**Registration is free but advance registration is required.**
