

Newborn Disease Screening Panels

Recorded Session on the Advocate Health CE Platform
From 2/17/26 to 2/17/27

Overview: This presentation will explore the purpose and public health impact of newborn screening, highlighting its role in early detection and management of serious conditions. It will cover core conditions included in screening panels, the healthcare provider's responsibilities in follow-up care and medication management, and examine clinical implications of positive results along with state-specific differences in screening practices.

Speaker: Linden Young, PharmD, PGY1 Resident – Advocate Aurora Medical Center Grafton

Preceptor: Jennifer Vogel, PharmD

Objectives:

1. Outline the purpose and public health impact of newborn screening.
2. Identify core conditions included in screening panels.
3. Recognize the healthcare provider's role in supporting screening, follow-up care, and medication therapy management.
4. Name state-specific differences in screening practices.
5. Discuss clinical implications of positive results.

Target Audience: Advocate Health Pharmacists, Physicians, Nurses, and other interested healthcare professionals

Disclosure: The planner(s) and speaker(s) have indicated that there are no relevant financial relationships with any ineligible companies to disclose.
