

At the Cervix of Change: Updates in Cervical Cancer Treatment

Pharmacy Grand Rounds 2026

April 7, 2026, 1200-1300 CST/1300-1400 EST

Penthouse Conf Room /Cancer Center and Virtual via Microsoft Teams Webinar

Overview: In this presentation, we will review recent updates in the treatment of cervical cancer, with a focus on evolving guideline-directed therapies, including immunotherapy and targeted agents. We will emphasize appropriate patient selection, biomarker-driven treatment decisions, and considerations for medication management. The session will highlight the role in optimizing therapy, managing toxicities, and supporting evidence-based care.

Speakers: Halie Anderson, PharmD, and Riley Montague, PharmD; PGY1 Pharmacy Residents, Atrium Health Wake Forest Baptist Medical Center

Preceptor: Alexandra Cox, PharmD, BCOP

Objectives:

1. Describe the epidemiology of cervical cancer, including affected populations, key risk factors, and current prevention strategies
2. Explain cervical cancer staging and histologic subtypes
3. Compare treatment strategies for localized, advanced, and metastatic or recurrent cervical cancer
4. Identify supportive care considerations and strategies for managing treatment-related toxicities

Target Audience: Advocate Health Pharmacists, Physicians, Nurses, and other interested healthcare professionals

Disclosure: Alex Wolff, BCOP, FHOPA-Syndax Pharmaceuticals, mitigated; and Bristol Myers Squibb, mitigated; the other planner(s) and speaker(s) have indicated that there are no relevant financial relationships with any ineligible companies to disclose.
